

Wax

Polyethylene Wax

Description :

PE Wax is From By products HDPE and On grade HDPE.

PE Wax Use in Rubber & Plastic Industry For Filler Dispersion, Process Aids and Lubricant.

PE Wax Use in Paint & Pigment Industry For Filler Dispersion

PE Wax Use in Hotmelt Industry

TYPICAL PROPERTIES:

| Test Item | Unit | Specification |
|----------------------|-------------------|---------------|
| Physical Forms | Visual | White Flake |
| Softening Point | °C | 110 ± 10 |
| Melt Viscosity | 140°C | 50 ± 30 |
| Penetration Hardness | 0.1mm / 25°C | Max 5 |
| Density(25°C) | g/cm ³ | 0.92 ± 0.02 |

ORIGIN
SOUTH KOREA
